David,

I can't explain what happened but all the online materials and the mobile-app (which they are greatly encouraging use of) will be updated to reflect the following title and description:

**Economic Analysis and Risk Management under the LCSA: What might we expect**

In the LCSA, there is a clear separation between risk assessment and risk management. This section will discuss how the new statute changes, or doesn't change, the risk management activities, including the economic analysis requirements. In addition this section will highlight how the economic analysis has been conducted in recent Section 6 rulemaking proposals under the LCSA.

Speaker 1: Keith Belton

Speaker 2: David Widawsky

Speaker 3: Alan Krupnick

Apologies for the error in the program. Please let me know if you have any other questions or concerns.

Regards,

Nancy

**Subject:** RE: Global Chem Feb 23, 2017

Nancy – I’m confused by the title and description of our session in the final agenda. In reading the final agenda, I saw our panel described with no mention of economic analysis, which I thought was the central topic of discussion. Rather, the description reads: “Risk Management under the LCSA: What Might We Expect -- In the LCSA, there is a clear separation between risk assessment and risk management. This section will discuss the new requirements for EPA’s risk evaluation and risk management activities under the LCSA and what we may expect to see in the future, including requirements for upcoming consent orders.”

It doesn’t comport with our discussion before the new year, nor the invite letter I got in December which described our session as: “On behalf of the American Chemistry Council (ACC), I would like to thank you for accepting our invitation to speak at the Economic Analysis and Risk Management under the LCSA session at the GlobalChem Conference 2017.”

Your note from 1/11/17 to Keith, Alan, and me confirmed what I thought was the topic: “Thank you for agreeing to speak at GlobalChem 2017. Our session on “Economic Analysis and Risk Management Under the LCSA: What might we expect” is scheduled for Thursday, February 23, from 4:15-5:30pm.”

Can you help by explaining what is going on? I plan to talk only about economic analysis in the context of risk management.

Attached is the final agenda for the Global Chem meeting which begins tomorrow. You are welcome to attend the full meeting.

Our Session is Thursday at 4:15. If we don't find each other earlier in the day, I would suggest meeting at 4pm in the Diplomat Room, where our session will be held.

Please let me know if you have any questions or concerns.

Nancy

Gentlemen,

I'm looking forward to our GlobalChem session on February 23<sup>rd</sup>. Please let me know if you have any questions.

Please send me your short bios and slides as soon as possible. It's not clear if we will be able to load them in real-time during the conference.

Many thanks,  
Nancy

**Subject:** Global Chem Feb 23, 2017

Alan, Keith and David,

Happy New Year!!

Thank you for agreeing to speak at GlobalChem 2017. Our session on “Economic Analysis and Risk Management Under the LCSA: What might we expect” is scheduled for Thursday, February 23, from 4:15-5:30pm. Registration fees for speakers are waived, but you are responsible for all costs related to travel, lodging, and meals. Since the meeting is DC, those other costs should be low for all of you. You are all welcomed to attend any other parts of the meeting that are of interest. The agenda and meeting materials can be [found here](#).

**Each of you should prepare a 15-17 minute talk.** Please try not to go over that limit so we have at least 15 minutes for discussion (we will take all discussion at the end). The topics you agreed to cover are:

- ☐☐☐☐☐☐☐ **Speaker 1:** Keith Belton, Pareto Policy Policy Solutions, LLC, Risk Management Changes Under the LCSA

- ☐☐☐☐☐☐☐ **Speaker 2:** David Widawsky, US EPA, Economic Analysis Under the LCSA (basics of benefit/cost analysis. (Whats new, whats different what should be expected)

- ☐☐☐☐☐☐☐ **Speaker 3:** Alan Krupnick, Resources for the Future, Challenges and Expectations for Economic Analysis and Risk Management Under the LCSA (frontiers, gaps, needs)

**By February 10, please send me a bio and your slides.** If this deadline is a problem please let me know. Global Chem will share all slides with meeting participants.

Thank you again, and please feel free to refine your talk description if necessary and to contact me with any questions. If you think it would also be helpful to have a quick call to discuss roles and topics, I'd be happy to set that up.

I'm looking forward to a great session!

Regards,

Nancy
